Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 63d Congress, 3d session, is to be understood.

SALES OF GOVERNMENT PUBLICATIONS

The Superintendent of Documents, Washington, D. C., is authorized to sell at cost of paper and printing any United States public document in his charge, the distribution of which is not otherwise provided for.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau by which it was published. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title of the publication. If the publication is numbered, give the number also. Every such particular assists in quick identification. Do not order by the Library of Congress card number.

The accumulation of publications in this Office amounts to several millions, of which over a million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity. Many of the books have been in stock some time and are apt to be shop-worn. In filling orders the best copy available is sent. A general price-list of public documents is not available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, $1.10 a year, including index. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not

included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{10}$c. for each additional card for the same title ordered at the same time. Remittances for the L. C. catalogue cards should be made to the Librarian of Congress. They can not be furnished by the Superintendent of Documents.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft. Currency, if sent, will be at sender's risk.

Postage stamps, foreign money, and defaced or smooth coins are not acceptable.

No charge is made for postage on documents forwarded to points in the United States, Alaska, Guam, Hawaii, Philippine Islands, Porto Rico, Samoa, or to Canada, Cuba, Mexico, or Shanghai. To other countries the regular rate of postage is charged, and remittances must cover such postage.

The issue of coupons redeemable in public documents by the Superintendent of Documents has been discontinued.

Notes of General Interest

The publishing work of the Agriculture Department continues to grow amazingly. During the fiscal year 1914 the number of new publications was 1,152, and the total number of copies printed of these newcomers was 26,691,692. Of reprints of publications of former years the number was 11,494,700, making a grand total of 38,186,392, as the output of publications for the year. Of these the Superintendent of Documents sold 231,821.

Under date of Nov. 12, the United States State Department published early in December a List of articles embargoed by neutral European countries, compiled from the latest available information but liable to be changed as each country modifies its rules from time to time. The list is a long one and contains many commodities not usually supposed to have any relation to military or naval operations.

Education Bureau Bulletin 12, series of 1914, Rural schoolhouses and grounds, shows those adjuncts of the educational life as they are and as they ought to be. Sometimes the difference is great.

The annual report of the Attorney General of the United States for the year 1914, 45 cents in cloth, gives, in addition to the work of the various bureaus of the Justice Department, information relative to the enforcement of the Federal antitrust law, covering cases finally determined and cases pending; also cases under the interstate commerce law.

The annual report of the Secretary of the Treasury on the state of the finances for the fiscal year ended June 30, 1914, is sold by the Office of the Superintendent of Documents at 20 cents per copy.

The last annual report of the Commissioner of Corporations has been published. It contains an interesting discussion of the functions of the Bureau of Corporations and of the Federal Trade Commission.

The first annual report of the Commission on Industrial Relations has been issued, price 10 cents a copy.

An annual report which is always in great demand is that of the Chief Inspector of Locomotive Boilers to the Interstate Commerce Commission. The third report has been published. It contains many illustrations of locomotive boiler explosions and defects, and is sold for 15 cents a copy.

The annual report of the Isthmian Canal Commission and the Panama Canal for the fiscal year ended June 30, 1914, is published in two parts; the first a volume of text profusely illustrated, showing the actual work of construction, and the second a portfolio of plates and maps, sold together at $1.25.

The text of the 26th annual report on the Statistics of railways in the United States for the year ended June 30, 1913, has been published in a large quarto pamphlet, sold by the Superintendent of Documents for 10 cents. This is the standard authority on its subject.

A few months ago the country was engaged in a discussion of the merits of the "Friedmann treatment" for tuberculosis. The Hygienic Laboratory has published the report of the board appointed for the investigation of the merits of this treatment. Price, 10 cents.

An important publication in connection with the present agitation relative to our military resources is the Manual for noncommissioned officers and privates of infantry of the organized militia and volunteers of the United States, 1914 edition, 45 cents, fabrikoid. This publication is published by the authority of the Secretary of War. It covers instructions to officers of the organized militia, matters of discipline, drill, etc., and one of the most important parts of the work is the chapter entitled "Personal hygiene," embracing care of the feet, first aid rules, etc.

The text of the telegram sent by the Secretary of State to the American Ambassador at London, relative to the seizures and detentions of American cargoes destined to neutral European ports, has been printed by the State Department, and copies are for sale by the Office of the Superintendent of Documents at 5 cents each.

AGRICULTURAL "SPECIALS"

The Agriculture Department is issuing, under the general designation "special," a series of "boiled down" or condensed publications of a highly practical and efficient sort. Each one is only four pages long, but in that brief space it tells every time a complete story on an important subject. Each of the "specials" thus far issued disposes of a branch of farm enterprise in double-quick time and so clearly that nobody can possibly fail to understand it. The subjects thus far handled, with the dates of the publications, are as follows:

Nov. 21, 1914.—Winter oats in the cotton belt; Winter wheat in the cotton belt.

Nov. 25, 1914.—How southern farmers may get a start in pig raising; Horse and mule raising in the South.

Nov. 30, 1914.—Suggestions on poultry raising for southern farmers; Producing sheep on southern farms.

Dec. 2, 1914.—Rye in the cotton belt.

Dec. 15, 1914.—Hairy vetch for the cotton belt; Rape as a forage crop in the cotton belt.

Dec. 16, 1914.—Do you keep a cow?

Dec. 18, 1914.—Advantages of dairying in the South; Feeding the farm cow in the South.

Dec. 19, 1914.—The feeding and care of dairy calves; Marketing butter and cream in the South.

Dec. 23, 1914.—Permanent pastures for the cotton belt; Sorghum for forage in the cotton belt.

Evidently these "specials" have a special purpose in view. What it is is explained in a footnote printed on the first page of each one of the series. It runs thus: "Intended for farmers in the cotton belt, who desire to diversify their farming because of the economic crisis which adversely affects the cotton crop at this time."

CORRECTION FOR NOV. 1914, MONTHLY CATALOGUE

Page 235 of the Nov. 1914, Monthly catalogue, United States public documents, contained a note regarding the Report of the proceedings of the annual convention of National Association of Railway Commissioners, which is correct in all regards except as to the price of the publication. The 1913 proceedings are sold at $1.00, the 1914 at $2.50.

MARKETS AND RURAL ORGANIZATION OFFICE

NOTE.—The Markets Office was organized May 16, 1913, as a branch of the Secretary's Office, under authority of a paragraph in the miscellaneous section of the agricultural appropriation act approved Mar. 4, 1913.

In cooperation with the General Education Board of the Rockefeller Foundation, the Rural Organization Service of the Agriculture Department was organized in the fall of 1913. The work of this Service consisted of investigations in regard to the organization of agricultural communities upon a cooperative basis for the improvement of rural credit, educational, social, and hygienic conditions. The Service was financed by the General Education Board from the time of its organization to June 30, 1914. On July 1, 1914, the work of the Rural Organization Service was entirely taken over by the Agriculture Department under the authority contained in a paragraph among the miscellaneous appropriations of the agricultural appropriation act approved June 30, 1914.

Later the work of the Markets Office and of the Rural Organization Service was combined by the Secretary of Agriculture in one office, which was designated by him as the "Office of Markets and Rural Organization." The office at that time was established on the same footing as other bureaus and independent offices of the Department. It consists of "Marketing and Distribution Investigations" and "Rural Organization Investigations," both under the direction of the same administrative officer.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to $11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least $5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington. For topographic sheets see below.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The usual size, exclusive of the margin, is about 17.5 inches in height by 11.5 to 16 inches in width, the latter varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

Nearly two-fifths of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 10c. each; but in lots of 50 or more copies, whether of the same sheet or of different sheets, the price is 6c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least $3.00.

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this notice: "Applicants for these publications are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which applicants are especially interested. The papers included in this list are distributed *gratis*, except as otherwise indicated. Publications should be ordered by the *publication number*, and arranged in sequence. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The Contributions to knowledge and Miscellaneous collections are distributed without charge only to public libraries, learned societies, institutions, and specialists in this country and abroad. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remain to supply other demands. No general mailing-list of individuals is maintained. The reports can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. Remittances for publications not distributed gratuitously should be made payable to the 'Smithsonian Institution.' Applications from libraries should be accompanied by a statement of the number of volumes which they contain and the date of their establishment, and should have the endorsement of a Member of Congress."

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution, but as they are usually regarded as public documents and have free transmission by mail they are listed in the Monthly catalogue.
